- **B.Tech in Computer Science and Technology**
Sasi Institute of Technology and Engineering, Tadepalligudem
2020–2024 | CGPA: 6.89
 - **Class XII**
Sri Chaitanya Junior College, Tadepalligudem
2018–2020 | CGPA: 6.5
 - **Secondary School Certificate**
Montessori E.M High School, Tadepalligudem
2017–2018 | CGPA: 9.0
-

INTERNSHIP EXPERIENCE

Full Stack Developer Intern – Clariont Software Solutions, Hyderabad
May 2024 – Nov 2024

- Worked at EDZE, a SaaS company delivering SALES INFINITY — a unified telesales CRM and call-centre solution used by multiple industries to automate lead management, calling, follow-ups, and sales workflows.
 - Contributed to development/implementation of CRM features including lead capture, auto-dialer for SIM-based calls, multi-channel communication (WhatsApp, SMS, email), and business dashboards for analytics.
 - Helped streamline sales pipelines for clients by integrating lead sources, automating follow-up reminders, and enabling real-time team tracking — resulting in improved lead conversion and team efficiency.
 - Gained hands-on experience in SaaS-based tele-sales automation, call-centre workflows, CRM integration and business-intelligence dashboards in a live product environment.
-

PROJECT

Exploring Deep Learning Models for Diabetic Retinopathy Classification
Nov 2023 – Mar 2024

- Conducted research on CNN-based architectures for medical image classification.
 - Evaluated pre-trained deep learning models and optimized accuracy for healthcare data.
 - Enhanced diagnostic efficiency and provided insights for clinical adoption.
-
